## ES2.23+ Loudspeaker Cable

[SHARE](#)

★ Premier Plus ★ [Cable Match Table](#)

In its first year of launch the ES2.23+ loudspeaker cable (formerly ES2.3) received its first comparative review...

...a **5-star**/'Best-of-Test' (against many, more expensive cables) from **What Hi-Fi? Sound and Vision Magazine**.

Next followed its

second-a wonderful ovation from the prestigious audiophile **Hi-Fi World Magazine**. They said:

*"...this cable is an example of high-end technology at a sensible price and one for the more 'experienced' audiophile wishing for an all round, yet advanced sounding cable."*

This **Premier+ Grade cable** has almost 800 copper strands (400 per conductor) of our UF-UHP-OFC -we call this Ultrafine™-Copper™- delicately woven wire-each just 0.07mm diameter. Never before has a cable comprising so many strands been packed into just 3 sq mm of cross-sectional conductor area, and offered at such a cost effective price.

Structurally, the ES2.23+ consists of twisted copper strands, low dielectric loss polypropylene insulation, cotton damping and soft PVC sheathing. The Ultrafine™copper strands, in 7 concentric parallel bundles per conductor, are woven in a precision rope lay. The cotton damping is particular effective at eliminating the deleterious effects of 'microphony vibrations' (resonances) - a consideration ignored by many of our established competitors.

### Ecosse, Setting new standards

With the ES2.23+, we at Ecosse Reference are proud to have produced yet another cable that sets new standards in the performance/price arena.

May be terminated in z/x copper bananas or spades.

### Technical Specifications

- Ultra Hi-Purity-OFC™ multistranded conductors
- Superior low-loss PP dielectric insulation
- Rope-lay twisted pair configuration
- 3.00mm sq. conductor x-section

### Reviews & Testimonials

*"it has real strengths that grow and grow...a satisfying long term listening experience". Tonally it is very good-and the higher and lower frequency extremes impress..it isn't as nasal or as forced as the Atlas (cable)"*

HI-FI Choice Magazine, UK

*"...This cable is an example of high-end technology at a sensible price and one for the more 'experienced' audiophile wishing for an all round, yet advanced sounding cable."*

*"...a fine audiophile sound that is clean as a whistle...the Ecosse cable has a good, deep bass response that was also immediate and taut." "...treble was sweet and smooth and the midrange well detailed and spacious."*

HI-FI World Magazine, UK

- Cotton paper and yarn filled
- 9.5mm circular o/d soft PVC jacket

We cannot stress enough that significant improvements are possible from matching mains cable, loudSpeaker and interconnect cable-grade-wise (see our 'at-a-glance' Cable Match Table) throughout your system, thus enhancing synergy.

🗣️ *"Using ES2.23+ (nee ES2.3) our system sounded wonderful;clear and bright without being aggressive and with a bass that has weight and punch ...you can't do better than the ES2.3 biwire"...make no mistake: Ecosse ES2.23+ (nee ES2.3) is superb."*  
**What HI-FI? Sound and Vision Magazine, UK**

🗣️ *"..its response is smoothly and musically satisfying. There is no harsh edge added to musical instruments or vocalists..its behaviour remains unchanged no matter what type of music it is handling. It is right at home with Sinatra and Stravinsky. It has no significant flaws."*  
*Tonal Balance: 90. Fit and Finish:80. Value: 92*  
**EnjoyTheMusic.com, USA**

🗣️ *"Specialising in taut and powerful bass, it also delivers exceptional subtlety and detail: string quartets are delivered with air, space and dynamics"*  
*FOR: Space, dynamics and detail*  
*AGAINST: Nothing*  
*VERDICT: A fine cable at a very affordable price."*  
**What HI-FI? Sound and Vision Ultimate Guide Magazine, UK**
